

Why learn to dive with Underwater Sports?

At Underwater Sports we focus on quality rather than quantity so small groups are our specialty, which gives us more time to teach and coach our students. We teach from Entry Level to Divemaster and from Wreck to Deep Technical courses. We also offer a money back guarantee. After your first Scuba Dive in the pool, if you decide not to continue, we will refund your investment in full less the cost of the manual or eLearning fees.

Your diving journey will begin with the PADI Open Water Course. Learning to dive is your chance to gain a passport to the fascinating underwater world!

Students have three options for completing an Open Water Course with Underwater Sports:

Option 1 begins with orientation and knowledge development on Friday night, followed by a pool session on Saturday, and then the 4 ocean dives the following Saturday and Sunday.

Option 2 begins with orientation and knowledge development on Tuesday evening, followed by 2 pool sessions on Wednesday and Thursday evenings, and the 4 ocean dives Saturday and Sunday.

With Option 3 you can complete the course at any time convenient to you, with an instructor one-on-one.

Courses begin at \$495 for the PADI International Open Water certification. This includes all specialized hire equipment and pool costs for the course. Not included are your personal mask, snorkel, fins, and boots (we have some great student packages available in-store, and all our diving students receive 10% discount off the RRP). We suggest that you don't invest in your personal equipment until after your Instructor or our shop manager has explained the correct fit of these items.

Prior to the first knowledge development session, you will need to review information in the course manual and complete the exercises. A deposit of just \$100 will get you started.

Before you learn to dive, you must have a Scuba Diving Medical. Please contact us for more information and the medical forms you'll need to take to the doctor.

As a qualified diver you will be eligible to join our very active dive club. Underwater Sports dive club has nearly 100 members, with the membership growing each month as the new divers we train join in the activities. The club caters for all levels of divers. We have weekend trips, evening dives, weekday excursions, and overseas holidays. We also meet 6 times a year for a fun social evening or afternoon.

If you have any questions on any of the information enclosed please don't hesitate to contact us on 8263 3337. We hope to hear from you soon, or if you have a few spare moments why not call in to the dive shop.

Kind regards
Jolie & Dave
